LR is the best payment processor so far. I am satisfied with it. But it would not be good to block accounts. We all depend on a reliable processor like

LR cannot continue to support scams like HYIPs and other fishy businesses which are advertised on Talkgold too. If LR will continue to do it, they will have the same way like e-gold.com and I guess LR admin doesn't want that. 😞
Any reliable payment system should ask about an ID.Don't you think so?

That's pretty right. They must have the ID..
Besides how can anyone load fraudulent on Libertreserve? i don't think there is anyway as loading does not include banks,creditcards etc.

Nope. Only those payments systems that are in US (e-gold, e-bullion, paypal).
